IDENTIFICATION

CATTLE

Cattle born after 1.1.1998 must have a Defra approved ear tag in each ear (double tagging). The tag in each ear must have the same unique number. Such animals will be identified throughout their lifetime by this unique number. Animals born or imported into Britain before 1.1.1998 may continue to be identified by a single tag. Cattle born after 1.7.2000 must be identified by all numeric tags.

When an animal moves on and off a showfield, the steps below should be followed.

1. Exhibitor reports the movement off the holding.
2. Show secretary reports the movements on and off the showfield

3. Exhibitor reports the movements back onto the holding. Exhibitors to report the movement back to their holding to BCMS within 3 days of the show. Exhibitors must bring documents to the show for each animal:

- A cheque book style passport (CPP13) or
- A single page passport (CPP52) or
- A certificate of registration (CVHR3) or
- A certificate of registration and a blue/green passport (CPP1)

If the passport movement summary is full, a continuous sheet should be attached.

SHEEP AND GOATS

Sheep born after 31.12.2009 require a full EID, two identifiers one of which must be electronic. The EID can be contained in a tag, a bolus (an identifier in a container that is swallowed and stays in the animal's stomach) or a pastern tag (band around the animal's lower leg). Sheep identified for slaughter under 12 months of age require a single electronic slaughter tag which contains the flock number only.

Goats are required to be double tagged.

Sheep and goats born after 18.1.2008 and before 31.12.2009 must be identified with 2 means of identification (2 official ear tags or 1 ear tag and 1 tattoo or solely, in the case of goats, one official ear tag and a stern tag) bearing the same number. Older animals born prior to 18.1.2008 and not already officially identified are now also subject to double identification. However, in the case of animals being born prior to 9.7.2005, this will only apply when the animals are moved off the holding.

MOVES TO SHOWS

A movement document must be complete for each show showing the number of animals moved at batch level. It is the exhibitor's responsibility to report these moves to the Scottish Animal Movement Unit (SAMU) in Dumfries. Stock may be inspected at shows in order to satisfy disease control measures.
